

src/texteditor/TextEditor
Theme.h

```
graph TD; A["src/texteditor/TextEditor Theme.h"] --> B["QColor"]; A --> C["memory"];
```

The diagram illustrates the dependencies of the header file `src/texteditor/TextEditorTheme.h`. It is represented by a grey rectangular box at the top. Two blue arrows originate from the bottom edge of this box, pointing downwards to two separate white rectangular boxes. The left box contains the text `QColor`, and the right box contains the text `memory`. This indicates that the `TextEditorTheme.h` file depends on both the `QColor` class and the `memory` module.
