

```
unicode_helper_::utf8decoder  
::utf8decoder
```

A diagram showing a call from the `unicode_helper_::utf8decoder` namespace to the `unicode_helper_::clear_state` function. The source namespace is highlighted in a grey box, and the target function is in a white box. A blue arrow points from the source to the target.

```
unicode_helper_::clear  
_state
```
