

Git::User

```
classDiagram
    class GitUser["Git::User"]
    class ConfigUserDialogPrivate["ConfigUserDialog::Private"]
    ConfigUserDialogPrivate ..|> GitUser : local_user, global_user
```

The diagram shows a class hierarchy. At the top is a white box labeled 'Git::User'. Below it is a grey box labeled 'ConfigUserDialog::Private'. A dashed purple arrow points from the grey box up to the white box. To the right of the arrow, the text 'local_user' and 'global_user' is written, indicating the attributes inherited from the base class.

local_user
global_user

ConfigUserDialog::Private
