

src/win32/thread.h

```
graph TD; A[src/win32/thread.h] --> B[stdarg.h]; A --> C[pthread.h];
```

The diagram illustrates a dependency structure. At the top is a grey rectangular box containing the text 'src/win32/thread.h'. Two blue arrows originate from the bottom edge of this box. The arrow on the left points to a white rectangular box containing 'stdarg.h'. The arrow on the right points to another white rectangular box containing 'pthread.h'. This indicates that 'thread.h' includes both 'stdarg.h' and 'pthread.h'.
